

KIDS' CORNER: How to Make a Kid's Cape

WHAT YOU'LL NEED:

- Fabric based on the size of your child
- Ribbon
- Scissor

DIRECTIONS:

1. Fold your fabric in half and cut a basic cape shape
2. Use scissors to make slits across the top of the cape (the slits should be a little longer than the width of your ribbon). Space the slits 1½ inches apart and 2 inches below the top
3. Thread a 5-foot length of ribbon through the slits (1-inch-wide ribbon is recommended)
4. To attach the cape, thread the ends of the ribbon over your child's shoulders and under his/her arms, backpack style, and tie around his/her back
