Retail on-highway diesel prices, as published by the Energy Information Administration (EIA) of the U.S. Department of Energy. The diesel rate used to determine the Energy Charge will be the peak weekly published price per gallon on any day in the 30-day period ending on the 15th of the month as reported on the EIA website "On-Highway Diesel Fuel Price" Index. Any rate below \$1.45/gal will remain 2.60%. Effective March 1, 2018.
